Background Information:

§22.1-199.2.B. of the <u>Code of Virginia</u> (*Code*) requires the Board of Education to collect, compile and analyze data required to be reported by local school divisions to accomplish a statewide review and evaluation of remediation programs. The *Code* further requires that the Board annually report its analysis of the data submitted and a statewide assessment of remediation programs, with any recommendations, to the Governor and the General Assembly, beginning on December 1, 2000.

In April 2005, the Board of Education approved remedial plans for local school divisions. These plans were submitted to the Governor and members of the General Assembly in August 2005.

Summary of Major Elements

Data for the summer 2004 remedial summer programs were collected after the results of the 2005 Standards of Learning (SOL) assessments were released. A summary of the remedial plans for all school divisions for summer remedial programs held in 2004 is included in the report as Appendix A. Appendix B contains the regulations specifying standards for state-funded remedial programs.

The attached report also contains a summary of funding amounts provided to each local school division (Appendix C) for Standards of Learning Remediation and Standards of Learning Remedial Summer School.

Superintendent's Recommendation:

The Acting Superintendent of Public Instruction recommends that the Board of Education waive first review and submit the attached report to the Governor and General Assembly as required by §22.1-199.2.B. of the *Code*.

REPORT

ANALYSIS AND ASSESSMENT OF STATE-FUNDED REMEDIAL PROGRAMS

DECEMBER 2005

OFFICE OF SCHOOL IMPROVEMENT

Introduction

Analysis and Assessment of State-Funded Remedial Programs

§22.1-199.2.B. of the Code of Virginia (Code) requires the Board of Education (Board) to collect, compile, and analyze data required to be reported by local school divisions to accomplish a statewide review and evaluation of remediation programs. The Code further requires that the Board annually report its analysis of the data submitted and a statewide assessment of remediation programs, with any recommendations, to the Governor and the General Assembly.

Regulations for State-Funded Remedial Programs

Background

Section 22.1-199.2 of the Code required the Board of Education to promulgate regulations establishing standards for remediation programs that receive state funding, without regard to state funding designations. After Board approval on January 14, 2003, regulation 8 VAC 20-630 was placed in the *Virginia Register of Regulations* on February 25, 2003, and became effective on March 28, 2003.

Regulation 8 VAC 20-630, Appendix B, institutes a maximum pupil-teacher ratio for state-funded summer remedial programs; requires school divisions to submit a remediation plan, record and report specified data pertaining to their state-funded remedial programs, maintain an individual student record indicating the student's expected remediation goal, and annually evaluate the success of those programs; and provides standards for state-funded remedial programs.

Language contained in Item 146.B.13, Chapter 951, 2005 Acts of Assembly, states that school divisions may choose to use state payments provided for Standards of Quality prevention, intervention, and reremediation in both years and for Standards of Learning remediation in the first year as a block grant for remediation purposes, without restrictions or reporting requirements, other than reporting necessary as a basis for determining funding for the program. For the 2004-2005 fiscal year, school divisions choosing to use Standards of Quality remediation funds and Standards of Learning remediation funds (derived solely from monies carried forward from the 2003-2004 fiscal year) as block grants are not subject to restrictions or reporting requirements.

Consequently, data for the 2004-2005 fiscal year was not reported for these two programs because all school divisions were participating in the block grant program.

Description of State-Funded Remedial Program

Standards of Learning Remedial Summer School

The Standards of Quality §22.1-253.13:1 require division superintendents to provide a program of prevention, intervention, or remediation that may include remedial summer school to students who are educationally at-risk including, but not limited to:

- a. those who fail to achieve a passing score on any Standards of Learning assessment in grades 3 through 8; or
- b. those who fail an end-of-course test required for the award of a verified unit of credit required for the student's graduation.

The 2004-2006 appropriation act provides funds to each local school division for the operation of programs designed to remediate students who are required to attend. The act requires that students attending these programs not be charged tuition and or awarded high school credit.

Appendix A

Data Reported by School Division Required by 8 VAC 20-630

8-VAC 20-630-50 requires each local division to annually collect and report to the Department of Education, online or on forms provided by the Department, the following data pertaining to eligible students:

- 1. The number of students failing a state sponsored test required by the Standards of Quality or Standards of Accreditation;
- 2. A demographic profile of students attending state-funded remedial programs;
- 3. The academic status of each student attending state-funded remedial programs;
- 4. The types of instruction offered;
- 5. The length of the program(s);
- 6. The cost of the program(s);
- 7. The number of disabled students and those with limited English proficiency;
- 8. As required, the pass rate on Standards of Learning assessments; and,
- 9. The percentage of students at each grade level who have met their remediation goals.

Data reported for summer remedial programs held in 2004.

Type of Program(s) Offered in the Summer of 2004 or in the case of year-round schools (2004-2005)	Percentage of Localities
An integrated summer remedial program in K-5 or intercession program in the case of year-round schools (2004-2005)	86%
A summer remedial program or intercession program in the case of year-round schools (2004-2005) in one or more content areas grades K-8	94%
A summer remedial program or intercession program in the case of year-round schools (2004-2005) in one or more content areas for secondary programs	95%

Demographic Profile	Number Reported	Percent of Total
A demographic profile of the students who attended remedial programs in 2004 or in the case of year-round schools (2004-2005)	•	
Total Number	106,441

9-12	98%	98%	97%	97%

^{*8} VAC 20-630-30 requires each local school division to record, for each eligible student attending a state-funded remedial program: (i) the state or local criteria used to determine eligibility; (ii) the expected remediation goal for the student in terms of a target score on a locally designed or selected test which measures the SOL content being remediated; and (iii) whether the student did or did not meet the expected remediation goal. This percentage reflects the number of students who met their remediation goal, including the SOL assessment, if appropriate.

Cost of Program		
The cost of the program(s) for remedial programs in 2004.	State Funds Expended	\$22,175,640
	Non-State Funds Expended	\$18,112,815
	Total	\$40,288,455
Cost per pupil: \$378		

Appendix B

Standards for State-Funded Remedial Programs 8 VAC 20-630

8 VAC 20-630-10 Definitions.

The following words and terms when used in this regulation, shall have the following meanings, unless the context clearly indicates otherwise:

"Eligible students" are those students who meet either (i) the criteria identifying students who are educationally at risk which has been established by the local school board, or (ii) the state criteria identifying students who are educationally at risk as specified in §22.1-253.13:1.

"Regular instructional day" means the length of the school day in which instruction is provided for all children, but excluding before and after school programs for state-funded remedial programs.

"Regular school year" means the period of time during which the local school division provides instruction to meet the Standards of Quality, exclusive of summer school, Saturday sessions, or intercession periods.

"State-funded remedial programs" include those programs defined in the local school division's remediation plan which serve eligible students from state funding sources.

8 VAC 20-630-20 Remediation plan development and approval.

Each local school division shall develop a remediation plan designed to strengthen and improve the academic achievement of eligible students. Local school divisions shall submit these plans at a time to be determined by the Superintendent of Public Instruction for approval by the Board of Education. Following approval of the plan, each local school division shall submit a budget for the remediation plan that identifies the sources of state funds in the plan.

8 VAC 20-630-30 Individual student record.

Each local school division shall record, for each eligible student attending a state-funded remedial program: (i) the state or local criteria used to determine eligibility; (ii) the expected remediation goal for the student in terms of a target score on a locally designed or selected test which measures the SOL content being remediated; and (iii) whether the student did or did not meet the expected remediation goal.

8 VAC 20-630-40 Program evaluation.

Each local school division shall annually evaluate and modify, as appropriate, their remediation plan based on an analysis of the percentage of students meeting their remediation goals. The pass rate on the Standards of Learning assessments shall also be a measure of the effectiveness of the remedial program.

8 VAC 20-630-50 Reporting requirements.

Annually, each local school division shall collect and report to the Department of Education, online or on forms provided by the Department, the following data pertaining to eligible students:

- 1. The number of students failing a state sponsored test required by the Standards of Quality or Standards of Accreditation;
- 2. A demographic profile of students attending state-funded remedial programs;
- 3. The academic status of each student attending state-funded remedial programs;
- 4. The types of instruction offered;
- 5. The length of the program(s);
- 6. The cost of the program(s);
- 7. The number of ungraded and disabled students, and those with limited English proficiency;
- 8. As required, the pass rate on Standards of Learning assessments; and
- 9. The percentage of students at each grade level who have met their remediation goals.

8 VAC 20-630-60 Teacher qualifications and staffing ratios.

Each local school division implementing a state-funded remedial summer school program shall provide a minimum of 20 hours of instruction per subject, exclusive of field trips, assemblies, recreational activities, lunch or post-program testing time.

For state-funded remedial summer school programs in grades K-5 that offer an integrated curriculum, a minimum of 40 hours of instruction shall be required.

The pupil-teacher ratios for state-funded summer remedial programs shall not exceed 18:1.

Individuals who provide instruction in the state-funded remedial programs shall be licensed to teach in Virginia or work under the direct supervision of an individual who is licensed to teach in Virginia; be qualified to provide instruction in the area to be remediated; and be trained in remediation techniques.

8 VAC 20-630-70 Transportation formula.

Pursuant to the provisions of the state's Appropriation Act, funding for transportation services provided for students who are required to attend state-funded remedial programs outside the regular instructional day shall be based on a per pupil per day cost multiplied by the number of student days the program operates (i.e., the number of instructional days the state-funded remedial programs are offered multiplied by the number of students who attend the state-

funded remedial programs). The per pupil per day cost shall be based on the latest prevailing cost data used to fund pupil transportation through the Standards of Quality.

For state-funded remedial programs that operate on days that are in addition to the regular school year, 100 percent of the per pupil per day cost shall be used in the formula. For state-funded remedial programs that begin before or end after the regular instructional day, 50 percent of the per pupil per day cost shall be used in the formula. The state share of the payment shall be based on the composite index.
